
STANFORD EXPLORATION PROJECT

Report Number 56, September 1987

by

Jon Claerbout, Steve Cole, Joe Dellinger, John Etgen, Paul Fowler, Jean Luc Guiziou, Stew Levin, Pete Mora, Francis Muir, Rick Ottolini, Fabio Rocca, Niki Serakiotou, Chuck Sword, Marta Woodward

SEP-56 — TABLE OF CONTENTS

Modeling

Sword, C., Numerical dispersion and attenuation in the M3 modeling system 1

Muir, F., M3 to M4: from Huygens' to conservation variables 19

Etgen, J., Finite-difference elastic anisotropic wave propagation 23

Muir, F., Layered models, equivalence, & Abelian groups 59

Seismic Arrays

Cole, S., On-line movies of the response of beam-steered geophone arrays 71

Cole, S., Design and processing considerations for a passive seismic survey 87

Tomography and Velocity

Guiziou, J-L., 3-D ray-tracing: Application to tomography 93

Fowler, P.J., Predicting migration velocity anomalies 121

Claerbout, J.F., The velocity transform and its preconditioning 137

Woodward, M.J., Diffraction tomography: perturbed vees in midpoint-offset space? 145

Picking

Serakiotou, N., A proposed algorithm for picking events in CMP gathers 153

Claerbout, J.F., What's wrong with sharpness 163

Migration

Rocca, F., Synthetic aperture radar: a new application for wave equation techniques 167

Levin, S.A. and Rocca, F., Dip moveout and Stolt migration using the singular value decomposition 191

Ottolini, R., Synthetic aperture radar data processing 203

Computers

Levin, S.A., Finite-difference migration on a hypercube 215

Mora, P., Seismic inversion using fine grain parallel computers 241

Woodward, M. and Levin, S.A., Finding the median on a vector computer 255

Claerbout, J.F., Interactive filter design in the Z-plane 263

Ottolini, R., Seismic data processing standards (SEG workshop abstract) 273

Cole, S. and Dellinger, J., Display of grey-scale data on a bilevel output device: addendum 277
